As summer arrives, so does heat, humidity and too much sweat. **TODAY Style** is here to help!

We asked celebrity skin-care experts to share their favorite products for staying sweatproof this summer. The best part? Everything can be found in the beauty aisle at your local drugstore.

10. NYX Professional Makeup Angel Veil Skin Perfecting Primer, \$16, [CVS.com](#)

"Sweaty makeup is never a good look, but it's hard to avoid in the hot summer months. I have found starting with a good primer is key — I love NYX Professional Makeup Angel Veil Skin Perfecting Primer, which keeps my makeup on point. It goes on silky smooth and keeps my makeup from melting, especially when it's so humid," said [Dr. Anna Avaliani](#), cosmetic and laser surgery expert, whose clients include several Victoria's Secret runway models.
